Hoodie
@hoodiehq

Never contributed to Open Source before?
We prepared a few issues for you
github.com/hoodiehq/camp/ …
#hacktoberfest @YourFirstPR

🤔 **What you will need to know**

Nothing. This issue is meant to welcome you to Open Source :) We are happy to walk you trough the process

❓ **The Motivation**

GitHub recently released a new feature which shows the repository's license on the overview page. While all of Hoodie's repositories have a License (Apache-2.0), it is not displayed on the overview. The reason is that our LICENSE files are missing a few parts.

🎯 **The goal**

The license should be displayed on hoodiehq/hoodie-admin's overview page like it is displayed on the hoodiehq/hoodie repository
